Basic Objective

Aobayama Park covers the area surrounded by Hirose River and Aobayama Hill, including the Sendai Castle's site, which is considered to be the foundation of Sendai. While utilizing historical and cultural resources passed down from the feudal age, and the beauty of natural scenery, we will proceed with this project to develop the park as a symbol of the "City of Trees", one that both citizens and tourists can grow fond of.

[Project Theme (Future Vision)]

Creating historic and natural landscapes that will become Sendai's pride and be engraved in people's minds.
